Message from the Section Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

- **Open Access** Unlimited and free access for readers

Aims and Scope

Electronics (ISSN 2079-9292) is an international, peerreviewed, open access journal on the science of electronics and its applications. It publishes reviews, research articles, short communications and letters. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

The scope of *Electronics* includes:

Microelectronics and Optoelectronics Power Electronics Bioelectronics Microwave and Wireless Communications Computer Science & Engineering Networks Systems & Control Engineering Circuit and Signal Processing Semiconductor Devices Artificial Intelligence Electrical and Autonomous Vehicles Quantum Electronics Organic Electronics Artificial Intelligence Circuits and Systems (AICAS) Industrial Electronics
